

## New Product Entris® II Laboratory Balances as low as \$824.99!

For accurate weighing results  
you can trust time after time

### Highest quality standards engineered in Germany

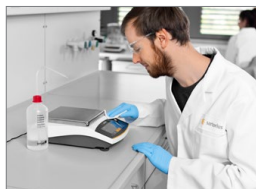

- Highly accurate results year in and year out - guaranteed via monolithic weigh cell technology invented by Sartorius\*
- Fastest stabilization time in its class - using state-of-the-art weighing sensors
- Best repeatability - with rectangular weighing pan
- Overload protection - rugged design weighs up to a pre-set amount
- Guaranteed reliability - with the self-test "@start"
- Made in Germany

### Easy clean for operational efficiency and durability

- High chemical resistance - ensured using parts made from hard-wearing polybutylene terephthalate (PBT), stainless steel and glass
- Prevents cross contamination - with wipe clean design and easy-to-remove parts

### Effective draft shield

- Minimizes weighing errors caused by electrostatically charged samples - using specially coated glass parts

## Entris® II Technical Specifications
